Dear Friend Alice:—

Received your letter of Nov. 26th had almost given you up, but cl know how short life is. sometimes there is some very hard digging to do or cl had to anyway.

cl had a very nice Thankgiven especialy the eating part we had turkey, punpkin pie and many other things to numerous to mention

Phillips who's arm was shot off while in the balloon has been discharged. he got $10,000 so cl don't suppose he'll have to worry about living in the future, since then the balloon hasn't went up

The Company has just come back from the firing range, we were out there three days and firing all the time, when cl came in at night my ears were ringing, could hardly hear another person talk

The people here sure do believe in celebrating Christmas. they have spared neither time or money in decorating their stores all stores from an ice cream parlor to a hardware store

sell toyes.

Write with a pencil, I came from the farm and as plane as anybody I think I will take up the City life after I get out of the army but never expect to let the City get the best of me

The Y. M. C.A. will give a program and lots of eats next Wednesday evening all free for the service men will write about it later.

How is Ross Field? I suppose some of the Companys have left and others arrived, wish the Third Company was back again, is Holderbaum there? he got a furlough about three months ago and hasn't arrived here, some of the boys said he reported for duty in Ross Field.

As Friend

Carl Albers
